Experience

Part-Time Coding Instructor
Algorithmics Global – Ajax/Whitby, ON
April 2025 - Present

- Teach programming fundamentals and game development to students aged 7–17 using Python, Scratch, and visual programming tools.
- Adapt lessons to various age groups and skill levels, promoting engagement and problem-solving.
- Guide students through projects, fostering creativity and logical thinking in a collaborative learning environment.
- Provide feedback and support to enhance student progress and interest in STEM fields.

Skills

Technical Skills

Programming Languages:

Python, Java Script, C#, ThreeJS Library

Computer System Servicing:

Proficient in diagnosing, troubleshooting, and repairing hardware and software issues. Experienced in system maintenance, updates, and performance optimization.

Soft Skills

Peer Mentoring:

Assisted fellow students by leading study groups and tutoring sessions, helping classmates understand challenging concepts and improve academic performance.

Team Leadership:

Led academic project teams, coordinated task delegation, and ensured effective communication and meeting of deadlines during course assignments and lab work.

Extracurricular Involvement:

Organized or participated in student-led workshops, seminars, or coding clubs, sharing technical knowledge and best practices with peers.

AWARDS & RECOGNITION

- **Best in Work Immersion**
Awarded for outstanding performance during the work immersion program. Demonstrated exceptional professionalism, initiative, and adaptability in a real-world work setting. (2024, Xaviery Computer Center.)
- **Best in Computer System Servicing**
Recognized for excellence in computer system servicing skills. Exhibited strong technical knowledge, problem-solving abilities, and commitment to maintenance and support tasks. (2023–2024, Alvindia-Aguso Senior High School.)
- **JavaScript ThreeJS Expertise**
Honored in recognition of innovative work with JavaScript and ThreeJS, creating interactive 3D web applications and immersive visualizations. Developed projects that merged strong coding techniques with creative design. (2024, Centennial College)

EDUCATION

Centennial College, Progress Avenue – College Diploma

September 2025 - December 2026

Software Engineering

AAHS, Tarlac City — *TVL Post Graduate Diploma*

March 2022 - July 2024

ICT : Major in Computer System Servicing
